Mr. P.V.S. Prasad
General Manager, PET Division
RELIANCE INDUSTRIES LIMITED
Reliance House, 2nd Floor,
15, Walchand Hirachand Marg,
Ballard Estate, MUMBAI 400 038

Dear Mr. Prasad,

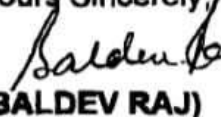

Sub: BIS status of RELPET bottle grades resins

Ref: Request by Reliance Industries on the above subject (Fax message dated 06.04.2004)

With respect to the above request for our opinion confirming the status, under Bureau of Indian Standards of Reliance Industries RELPET (polyethylene terephthalate (PET)) bottle resins grade, RELPET G 5761 and G 5801, which were tested at CFTRI as per IS 9845-1998, (Ref. our report No. CNP-212/2002 dated 15.11.2002 and TR-10/2001 dated 31.08.2001). Based on the information provided by the party, it is our opinion that the same reports may hold good as long as there is no change in the composition and manufacturing process.

We trust that this letter responds to your request for our opinion on the BIS status of the composition of Reliance's RELPET Resins

Thanking you,

Yours Sincerely,

(BALDEV RAJ)
